

South Coast Women in Building & Construction – Keep Safe at Heights

Friday 25th May 2018

Noon – 2pm

With the encouragement and support of women working in all aspects of the building industry, including industrial, manufacturing, building and construction, keeping ourselves and our employees safe is paramount. Work Health Safety regulations are getting tougher to continually keep the safety of workers front and foremost.

SCWIB is excited to announce that our May luncheon on 25th will be held and hosted by Heightsafe Solutions at BARRACK HEIGHTS.

Dianne McQuade Heightsafe business owner is pleased to provide advice on maintaining compliance with WHS Regulations, information on tag and test height safety, confined space and lifting regulations and best implementations as well as a tour and demonstration on some of their height safety equipment.

Heightsafe Solutions is a registered trading name of Accendo Asia Pacific which is a **family owned Australian company**.

Dianne and her expert staff can help us **to work smarter and safer**.

Their premises are very professional and will be a great opportunity for you to network with industry colleagues, have a light lunch and to get an insight on what can be achieved when working at heights, **safely in your work environment!**

Don't forget to bring your business cards

For plenty of networking & a chance to win prizes!

2 CPD points available for license holder builders & pool builders

All welcome, bring along your work colleagues, partners or staff!

WHEN: Friday 25th May 2018

TIME: Noon – 2pm

WHERE: 3 Sunset Avenue BARRACK HEIGHTS NSW (Illawarra Region)

COST: Complimentary, lunch included – please register for catering purposes, with thanks.
